--> Comment Text :
Since the nation and the Feds are bound and determined to
store their poison, in my state, and that Nevadans have no
way to say no to the Feds since we are only a 13% state, the
rest being owned by the Federal Government, I think it only
fair to compensate all Nevadans for the inconvenience and
potential danger of storing nuclear waste here in Nevada.

I purpose that each Nevadan be illegible for compensation
similar to the Permanent Dividend Fund given to Alaskans by
the petroleum industry. It seems to me that \$500.00 annually,
per Nevadan, would not be too much to ask for allowing other
states, as well as the DOE, to store their trash here in our

550194

beautiful state.
